

2018 UNI.CORN Management Internship Programme

Responsibilities

The DBS UNI.CORN Management Internship Programme is a comprehensive and structured programme aimed at giving interns a unique opportunity to work on real game-changing projects, engage innovators and ultimately, reimagine the future of banking.

In the course of this 12-week programme, UNI.CORN Management Interns (UMI) will participate in a structured induction programme, learn about various aspect of banking from senior business speakers, work closely with mentors who are business leaders, and have the opportunity to network with both the bank's management and Management / Graduate Associates.

UMIs will have the opportunity to work on exciting business challenges provided by various business units, including the consumer bank, institutional bank, technology & operational, human resources, etc. These challenges are problems that actual DBS departments are working on, and can range from redefining banking for various groups of customers, or creating breakthrough technology and applications. It will be an unique opportunity for UMIs to better understand how real business problems are Discovered and Defined before the solutions are Designed and Delivered. UMIs will also have exposure to BAU activities in the bank, tailored around the challenges, so as to give everyone a more holistic experience overall.

Challenges will be shared with successful shortlisted applicants and you will be able to state your preference at a later stage of your application.

Outstanding UNI.CORN Management Interns will be considered for the bank's Graduate Programmes.
