

Industrial Placement / Internship

As a world-leading pharmaceutical organisation, we are committed to improving the quality of human life. With our combination of skills and resources we constantly strive to develop new products that **enable people to do more, feel better and live longer**.

Our Global team of creative people is always looking for new and better ways to improve the quality of human life. The source of our competitive advantage is the energy and ideas of our people. We are now inviting dynamic and enthusiastic individuals to join GSK Hong Kong in all areas of our business including Pharmaceutical, Consumer Healthcare and other Functional Teams including Sales, Marketing, Medical Affairs, Human Resources, Supply Chain and Information Technology.

Responsibilities:

- Depending on the needs of the business and candidate's background, opportunities are available across various divisions and functions in our Hong Kong office
- Support the team in the capacity of an industrial placement / intern

Requirements:

- University students across related majors
- Good communication skills and have a can-do attitude
- Act with Integrity
- Analytical and detailed minded
- Proficient in MS Word, Excel, PowerPoint and Chinese Word Processing
- Contract period: 3 - 12 months depending on the role
- Student can work part-time, as study timetable permits

If you are ready to take on challenges and be rewarded with attractive remuneration and career opportunity, please apply with your full resume, indicating your area/s of interest via GSK's Career Page.

All information provided will be treated in the strictest confidence and used for recruitment purposes only.

Pharmaceutical - Medical Service Associate

In GSK Hong Kong and Macau, we have a dedicated team of about 250 people, ensuring local people have timely access to our medicines, vaccines and consumer healthcare products to help them to DO MORE, FEEL BETTER and LIVE LONGER.

Our pharmaceutical and vaccines trading performances has been leading in Hong Kong for many years.

By offering a broad range of medicines and vaccines, we help healthcare professionals to provide the right treatments for patients.

The role of a medical service professional is essential in providing medical information and services to healthcare professionals and authorities on our pharmaceutical products, thus maximising sales opportunities in the assigned territory as well as strengthening and establishing relationships with GSK's customers.

We are seeking candidates who are:

- Strong analytical, planning & communication skills
- Self-motivated with good interpersonal skills
- Proficiency in spoken & written English & Chinese
- Entrepreneurship, strong drive and ambition to achieve success with integrity in a competitive environment

Education: Degree in Science preferred but not mandatory
