

HDE Global Internship Program

Software Engineering
Shibuya, Tokyo, Japan

This internship is on a *first-come, first-served* basis. Our team will review applications on a rolling basis and it's in the candidate's best interest to apply early. There is no deadline for the admission challenge submission, and timing to submit will not be considered in the application. HDE Global Internship Program is an unpaid internship with subsidized living expenses. A Short-Term Stay visa is required unless you are eligible for a visa exemption. Please apply at least 3 months in advance of your preferred time slot if you are not eligible for a visa exemption.

Job description

Join us for a unique 6-8 week internship that offers personal and professional development and experience in working in a Japanese company with the most global working environment, under the direct supervision of our experienced Cloud Product Development engineers.

In HDE GIP, you will experience practical application development skill using Python and Go. This internship provides opportunities to develop application by using Amazon Web Services/Google App Engine. Conversations in the office will be done in English (Japanese is not required).

Internship duration

6 to 7 weeks (from 10AM until 7PM from Monday to Friday)

Slots for 2018:

- March 5 - April 20 (7 weeks)
- May 14 - June 22 (6 weeks)
- June 25 - August 10 (7 weeks)
- August 27 - October 19 (7 weeks)
- October 29 - December 14 (7 weeks)

* 2019 slots are available upon request

Office location HDE, Inc.
