

The Census and Statistics Department (C&SD) together with statistical units established in various government bureaux and departments form the Government Statistical Service (GSS), representing a network for the provision of government statistical services. C&SD is responsible for conducting statistical surveys and operating statistical systems for the production of social, labour and economic statistics including data series on such areas as population, employment, labour, external trade, commerce and industry, prices, national income and Balance of Payments; performing statistical analysis and disseminating statistical data and analytical results; and providing consultation and support services on statistical matters to various government departments.
