

## **Profile of Jacobs China Limited**

Jacobs Engineering Group Inc ([www.jacobs.com](http://www.jacobs.com)), a FORTUNE 500 company, is one of the world's largest and diverse providers of professional technical services with revenues approaching US\$11 billion. It offers full-spectrum support to industrial, commercial; private and government clients across multiple markets. Services include scientific and speciality consulting, as well as engineering and construction, operations and maintenance. Jacobs has over 54,000 employees worldwide and our global network includes more than 230 locations in over 30 countries, including Asia, North America, the United Kingdom, Europe, India and Australia.

Jacobs China Limited is a subsidiary company of Jacobs Engineering Group Inc. It has a successful 43 year track record in Hong Kong. It draws together many years of experience to provide a technical and management consultancy charged with ensuring that its clients benefit from the innovative engineering design, scientific research and professional expertise at its disposal. It provides a dedicated service, which is applied with integrity and impartiality. Jacobs China Limited's clients, who span the entire spectrum of the private and public sectors, are assured of a fully co-ordinated design backed up by a commitment to flair and innovation in the production of cost-effective, durable and safe design solutions.

Jacobs provides consultancy services for feasibility studies, investigation, design, contract administration and site supervision of all areas of structural, civil, geotechnical, building services, environmental, transportation and maritime engineering works. We also provide services in building surveying and structural maintenance, material science, forensic engineering and project management.

Jacobs Quality System has been certified to ISO 9001:2015 and covers the full scope of its expertise, from inception of projects to handover of completed projects. Jacobs also implements an Environmental Management System, which has been certified to ISO 14001:2004. In addition, Jacobs Occupational Health and Safety Management system has been certified to ISO 18001:2007.
