

Telstra Graduate Program

Join our teams in Hong Kong & Singapore

Want to work with Australia's leading telecommunications and technology company, that's fast growing internationally? Here at Telstra we're looking for our next team of Graduates to join us in Hong Kong and Singapore – people who can give us the edge as we work towards our vision of becoming a world-class technology company that empowers people to connect.

Our Telstra Graduate program offers 24-months of challenging, hands-on and rewarding work that will give you the confidence and know-how to achieve your goals. You'll also get support from people at the top of their game, access to unrivalled technology and business innovations that will help you thrive and find your passion.

You can apply into one of our five program streams:

- Business & Commerce
- Engineering
- Finance & Strategy
- Information Technology
- Marketing and Products

Working at Telstra, you'll get responsibility – fast – and contribute to unique projects that could impact the future in our increasingly connected world. And there's only one way to truly understand our customer-connected future – by seeing it in action. That's why you'll work across various parts of our business, giving you a huge advantage in determining your career path.

As a graduate with us, you'll undertake a minimum of 3 rotations and take part in our corporate development program focusing on innovation, creativity, self-awareness and measured risk-taking. Joining Telstra you'll be part of a welcoming, supportive culture, with a dedicated mentor, your manager, a buddy, and support from our senior leadership team.

So whatever your background, find your edge, and see where starting your career with us could take you – Apply today!

*Program eligibility requirements

To be eligible for our program, you will need to be in your final year of study or have completed your degree within the last 2 years, and ready to commence with us in August 2018. You'll also need to have full working rights in your chosen program location (Hong Kong or Singapore).
