

**Comba Telecom** was founded in 1997. It has since then grown to become the largest supplier of cellular peripheral equipment in China. Leveraging its leading position in China, the group has been expanding rapidly in the international market and has risen to prominence in the wireless industry. The company successfully went public on the main board of The Hong Kong Stock Exchange in July 2003 and is now one of the top five manufacturers of wireless sub-systems products in the world. With its headquarters in Hong Kong, Comba employs around 7,800 employees in over 40 offices throughout the world and has deployed solutions in over 80 countries.
