

Guangzhou LintonPharm Co., Ltd

Guangzhou LintonPharm Co., Ltd. is a Sino-German joint venture focusing on research, development, production, marketing and service of bi-specific antibody and protein products for cancer immunotherapy. At present, the R&D headquarters and clinical department are located in Guangzhou International Bio-island. Clinical operation projects will be rolled out in Guangzhou/Shanghai/Beijing in 2019. And we have strategic expansion plan to build contract development and manufacture operation facilities in Hangzhou by the end of this year. Our company is committed to provide affordable bio-medical cure to cancer patients. We hope to become a multinational and innovative pharmaceutical enterprise and provide more happy time in life for all people!

LintonPharm is the youngest and most energetic entrepreneurial team in China's biomedical industry. We respects talents and have competitive salary system and incentive plans, multinational working environment, and the advanced biotechnology development platform. We plans to carry out long-term industrial strategic operation and business expansion in Guangzhou/Shanghai/Hangzhou/Beijing. LintonPharm will provide a promising future and international platform for those who have bio-pharmaceutical dream!
