# M MOSER AT A GLANCE

M Moser was established in 1981 as an architecture and interior architecture firm focused on facilities for end-users in Hong Kong. We have since grown in scope, scale and geographic reach to include approximately 900 professional staff operating in 15 office locations in Asia and throughout the world.

Our early architectural and interior commissions encompassed a diverse set of institutional, commercial, residential, cultural and industrial facilities, established the firm's reputation as an organisation with international perspective, local know-how and outstanding Client focus.

Our specialized areas of expertise, such as Technology in the Workplace, Strategic Facilities Planning, Accredited 'Green' Professional and Building Services Engineering were developed to augment our core interior architecture and construction services, and to provide Clients with an integrated, 'single-source' approach to the creation of interior workplace environments.

By advocating an approach that design and business solutions are synonymous, M Moser has become one of the leading services providers for office interiors in Asia.

## Certified WBENC

In December 2011 M Moser Associates became certified as a Women's Business Enterprise by the Women's Business Enterprise National Council.

# 17
