

## A GLOBAL GIANT

One of the world's largest and most admired apparel manufacturers, TAL Apparel produces shirts, blouses, knits, pants, outerwear and suits for many of the most famous garment brands. We join our skills and creativity with theirs to create the best garment in the world.

Headquartered in Hong Kong, TAL Apparel has 10 factories in the world and a workforce that is more than 26,000 strong.

Since 1983, we have sold over 1,000,000,000 garments. Today, 1 out of every 6 dress shirts sold in the U.S. is manufactured by TAL Apparel!

## TAL APPAREL, THE INNOVATIVE MANUFACTURER - THE INNOFACTURER®

The business focus of TAL Apparel, however, has never been simply on volume.

As a tireless innovator, we invent numerous quality products including pucker-free and wrinkle-free shirts, together with advanced water repellent and water management technologies.

Long term investment in R&D has enabled us to innovate almost every aspect of garment manufacturing. TAL Apparel's responsive supply chain solutions, for example, have dramatically increased sales and lowered costs for our customers. We never stop innovating.

## CARING FOR PEOPLE AND THE ENVIRONMENT

At TAL Apparel, we invest in the people who work with us, and give back to the communities in which we operate. We are committed to practicing business in a sustainable way, and contributing to philanthropic initiatives that benefit people and society. We believe in sustainability, simply we care.
