

Third Bridge▲

Third Bridge provides private equity firms, hedge funds and strategy consultants with the information that they need to understand the value of their investment opportunities.

Our vision for delivering deep insight and unbiased market intelligence has evolved into a business with a range of complementary services, eight offices across three continents and a global client base.

Whether it is facilitating a private conversation with an industry veteran, moderating a dialogue between experts and investors, or extracting insights from within the supply chain of a poorly documented industry, we are on our clients' side, helping them to make informed investment decisions.
