Corporate Profile

China Mobile Hong Kong Company Limited ("CMHK") is the wholly-owned subsidiary of China Mobile Limited (HKEx: 941) (NYSE: CHL), which ranks 55 on the Fortune Global 500. CMHK was incepted in January 1997 and was the first mobile network operator to launch PCS services in Hong Kong.

CMHK's 4G LTE service covers two major standards LTE FDD and TD-LTE, and launched the world's first converged commercial LTE network in 2012. The Company offers innovative and comprehensive communications services, including voice, data, IDD and international roaming through 4G LTE, 3GHSPA, GPRS, EDGE and other technologies. In 2016, CMHK became the first mobile operator* to provide 4G network coverage in 16 tunnels throughout Hong Kong.

CMHK is committed to extending its business in the multimedia value-added services market. In 2012, the Company launched UTV mobile TV service. In 2013, CMHK launched Mobius e-book service, innovative and simple mechanism 4G Pro tariff plan and 2cm (2nd exchange market), the first-ever data trading platform in the market, making data more valuable than ever.

With the strong support of its parent company China Mobile, CMHK has launched a series of cross-border mobile services for customers travelling between Hong Kong, China and around the world. Its '1-Card-Multi-Number' (1CMN), Multi-SIM data sharing, Data Roaming Zone and BlackBerry service plans are especially welcomed by frequent travelers. In May 2014, CMHK became the first service provider in Hong Kong to

provide 4G data roaming service in Mainland China, creating a new era for cross-border mobile services. In May 2016, CMHK has further extended its 4G data sharing service to Macau and Taiwan by launching “Supreme Greater China” 4G Service Plan, which allows its customers to enjoy 4G data sharing across Mainland China, Hong Kong, Macau and Taiwan with one monthly fee.

To align with parent company’s new brand launch, the Company launched a new corporate logo and commercial brand “and!” in December 2013. “and” not only means “connection and “communication”, but also denotes the notion of pursuing “A New Dream” – the first three letters form the acronym of the new brand slogan. China Mobile Hong Kong will continue to provide innovative and customized services in a hope to build “a new dream” with customers.

The Company has been named as a "Caring Company" since 2002, and a recognized merchant under the "Quality Tourism Service" scheme since 2004.
