

## **Mott MacDonald Hong Kong Limited**

Mott MacDonald is a £1.2 billion management, engineering and development consultancy with 16,000 staff and has a global reach spanning six continents. Our network of 180 principal offices in 140 countries gives us local market insight backed by a world-class expertise to deliver technical excellence for our clients. We were also named as Global Consultant of the Year 2014 at the NCE/ACE Consultants of Year Awards.

We have been established in Hong Kong for over 50 years. Our 500 employees work across multiple sectors covering residential and commercial buildings, transport, infrastructure, utilities, environment and project management. We aim to provide high quality management, engineering and environmental services to both the public and private sectors. Our best known achievements are the Hong Kong International Airport, the Tsing Ma Bridge and the West Kowloon Reclamation.

More recently, we have worked on the expansion of the Hong Kong International Airport with the 3rd Runway, the Hong Kong Zhuhai Macau Bridge, the infrastructure of the West Kowloon Cultural District, etc.
