Activities and Background: Siemens is a global powerhouse focusing on the areas of electrification, automation and digitalization. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is a leading supplier of systems for power generation and transmission as well as medical diagnosis. In infrastructure and industry solutions the company plays a pioneering role. As of September 30, 2015, we had around 348,000 employees in more than 200 countries. In fiscal 2015, they generated revenues of €75.6 billion.

In 1911, Siemens opened a sales office in Hong Kong. Over the last century, Siemens has been an integrated solution provider for many infrastructure projects on Hong Kong and Macau. We provided energy-efficient products and solutions in energy transmission and distribution to CLP in Hong Kong and CEM in Macau, railway solutions to the MTR Corporation, Material Handling Systems to Cathay Pacific Cargo Terminal, traffic control and surveillance solutions to countless tunnels and intersections in the city. Siemens also provides cutting edge medical equipments and IT solutions to Hong Kong's private and public hospitals and has supplied intelligent building solutions and services to commercial and government buildings, universities, and hotels. Siemens is implementing its environmental portfolio across all these business sectors in order to support a green society of both cities. Siemens' innovative technologies help creating a valuable future and Siemens takes responsibility in the communities. We are committed to caring for the people in need, supporting education of the younger generation and employee volunteer services. Since 2003, the company has been awarded the Caring Company Logo by the Hong Kong Council of Social Services.
